

BOYS & GIRLS CLUB

Volume 1, Issue 2 April 25, 2011

Of Lincoln Lancaster County

GREAT FUTURES START HERE

"While we try to teach our children all about life, our children teach us what life is all about."

Spring break March 21-25 a fun time was had by everyone. Teens enjoyed basketball tournaments, dance competitions and hanging out among friends. Younger members participated in jammed packed activities by Mr. Gavin and Staff. Kids scattered about to find all of the eggs they could gather up. The balloon stomp and making Jell-O Jigglers were a hit! The smiles tell it all.

Spring into Summer

The 2011 Boys & Girls Clubs of Lincoln/Lancaster County Summer Program is almost upon us! Club Staff have been working hard to create a new and exciting curriculum for our organization's 4th summer spectacular. This year's eight week program will begin June 13th and run through August 5th. Our hours of operation will continue to be 10-6pm for all club member's between the ages of 6-18yrs. The price of the program has not been set in stone yet but it should fall into the \$10-40.00 per child range with scholarships available to assist families in need. The Summer Program fee covers attendance for all eight weeks, a daily lunch provided by the Health Department and fieldtrip costs.

Lincoln/Lancaster County Health Department

One of our newest and most exciting partnerships is with the Lincoln/Lancaster County Health Department. Through this partnership, over one hundred of our club members have participated in Anti-Tobacco pop-corn bag & t-shirt decoration projects.

In addition to those wonderful projects, ten teens were selected to be a part of a city-wide Anti-Tobacco Campaign. Their pictures were taken and their faces will be used on promotional posters all across Lincoln to discourage teen use of tobacco. We are very fortunate to have great partners like the Lincoln/Lancaster County Health Department who continuously help us provide quality programming for our kids.

Bryan LGH Health Career

BryanLGH College of Health Science staff, faculty and students are grateful for this opportunity to provide the Health Career Club to middle school students at Boys & Girls Club of Lincoln. Thirty two middle school students participated in classroom instruction and hands on activities on Tuesday's at Boys & Girls Club and Field Trips to BryanLGH Medical Center on Thursdays. BryanLGH College of Health Sciences is committed to creating opportunities for middle school students to be nurtured in identifying their passions and strengths.

Groundwater Foundation

The Groundwater Foundation has been running a wonderful program with our Members for the past few weeks. The focus of the program is to raise awareness of the importance of maintaining our worlds water supply. Members take part in various activities such as water filtration experiments, identifying our numerous water sources, and preventing the contamination of our drinking water. The Groundwater Foundation has been greeted every week with nearly a dozen members
