

**Nebraska Wellhead Protection Network
Tuesday, January 11, 2011, 7:00 to 9:30 am.
Nebraska State Capitol Building – Lincoln, NE**

January 11, 2011 - Legislative Breakfast at the Nebraska State Capitol, Lincoln, Nebraska

Nineteen Network members and nineteen Senators/representative from Senators offices attended the Legislative Breakfast on January 11th. This was an informal information and networking breakfast. Invited guests, Senators and their staff, could discuss and learn about water issues in Nebraska with Wellhead Protection Network members. The Groundwater Foundation provided a looping PowerPoint presentation that included information about the Wellhead Protection Network and communities with approved plans and the Nebraska Association of Resources Districts provided funding for the coffee and rolls enjoyed by participants. In addition, during the week of January 10-14 space in the first floor Rotunda at the Capitol was reserved for Network members to set up displays featuring specific activities or overall agency/organization activities to educate those visiting or working in the Capitol about Wellhead Protection.
