## ADULT GROUNDWATER EDUCATION TOPIC OF UPCOMING GROUNDWATER FOUNDATION WEBINAR

LINCOLN, Nebraska (September 15, 2009) - How Groundwater Guardian teams from across the United States are educating adults about groundwater and related resources in their community will be the topic of the upcoming Groundwater Foundation Webinar at 2 p.m., Tuesday, September 22.

Gabrielle Belfit

Gabrielle Belfit, Barnstable County, MA; John Paquin, Kalamazoo, MI and Janine Reed, Sequim-Dungeness, WA will present case studies of innovative and successful adult education programs, including using movie trailers to share wellhead protection information, providing training for septic system owners and targeting education efforts at tourists and regional municipal officials.

"We have more than 150 Groundwater Guardian teams and affiliates across the United States and Canada who are all doing great work in their communities," said Groundwater Foundation Executive Vice President Cindy Kreifels. "We are excited to be able to feature three of them for the work that they do on educating adults in their hometowns."

John Paquin

The upcoming webinar will not only highlight the achievements of these three teams, but provide members of any community insight into how they benefit from their Groundwater Guardian team or forming a team of their own.

To register for the event, visit The Groundwater Foundation's website at [www.groundwater.org](http://www.groundwater.org) and click on the Webinars button. For more information, email [webinar@groundwater.org](mailto:webinar@groundwater.org) or call 1-800-858-4844.
